The great proportion of women who suffer never make a sexious effort to benefit themselves. The most of them go on paying no attention to their little menstrual disorders, believing they will eventually wear off. But menstrual troubles don't wear off. They grow worse and worse every day. At the period of menstruation a woman is peculiarly susceptible to cold and other external influences and it is also the most favorable time for the development of hidden disease germs which may be lurking in the system. Any physician knows that disordered menstruation, falling of the womb and leucorrhoea are blighting lives in almost every home. Your Wine of Cardui has done a world of good for me. I have used five bottles of the Wine and one package of Thedford's Black-Draught. And since I have started to use it I will not be without it in the house. It helped my sisten in Toledo, who did not menstruate as she ought. She was sixteen years of age and nothing helped her. I was in a very bad state myself before I used your medicines, but I found relief in three days. And now I feel like a new woman and do all my housework and washing, which I could not do before I took the Wine of Cardui.
